Blender 2.90: Python API Compatibility Operator Search. With the new operator search that only searches through menus, add-ons that expose operators only through search need to be updated. In general it is good practice to always expose operators through menus so users can find them.

## Reference/Release Notes/2.90/Python API - Blender ...

On the other hand Blender can also do a lot with images so an Image python API makes even more sense. I am actually using PIL to load images for BGL (to avoid the clumsy standard approach of loading them via the image editor using the existing Python API) and having this done natively by Blender sounds like a much better idea.
