### Art Of Thought

In 1926, thirteen years before James Webb Young's Technique for Producing Ideas and more than three decades before Arthur Koestler's seminal "bisociation" theory of how creativity works, English social psychologist and London School of Economics co-founder Graham Wallas, sixty-eight at the time, penned The Art of Thought — an insightful theory outlining the four stages of the creative process, based both on his own empirical observations and on the accounts of famous inventors and polymaths.
