Results-Orientated Budget Practice in OECD Countries

Provides an assessment of the status of gender budgeting in the G7 countries. In preparing the paper, the IMF carried out a survey of PFM institutions and practices in the G7, as well as in three comparator countries that are relatively strong performers in developing gender-responsive budgeting (Austria, Belgium, and Spain).

Gender Budgeting in G7 Countries - IMF

One answer to this question lies in the mechanisms used to pay health care providers. All but two (Japan and the United States) of the countries listed in Table 1 use global budgets or expenditure caps to constrain the growth in hospital and/or physician expenditures. Global budgets tend to be prospectively set caps on spending for some portion of the health care industry.

Global Budgeting in the OECD Countries

Global Budgeting in the OECD Countries Patrice R. Wolfe, M.P.P.M., and Donald W. Moran, B.S. Many of the Organization for Economic Cooperation and Development countries use global budgeting to control all or certain portions of their health care expenditures. Although the use of global budgets as a cost-containment tool has not been
