How was it that ordinary men in medieval England and Wales became such skilled archers that they defeated noble knights in battle after battle? The archer in medieval England became a forerunner of John Bull as a symbol of the spirit of the ordinary Englishman. He had his own popular literature that left us a romantic version of the lives and activities of outlaws and poachers such as Robin Hood. This remarkable development began 150 years after the traumatic events of the Norman Conquest transformed the English way of life, in ways that were almost never to the benefit of the English. This book is the first account of the way ordinary men used bows and arrows in their day-to-day lives, and the way that their skills became recognised by the kings of England as invaluable in warfare.

'Arran Water', the term for whisky distilled illicitly on the Isle of Arran, was revered for its quality throughout Scotland during the heydays of smuggling in the late 18th and early 19th centuries. Despite this reputation, Arran's rich distilling past has long been forgotten, cast into the shadows of more illustrious whisky-making neighbours such as Campbeltown and Islay. This pioneering book is the first to chart this fascinating aspect of the island's history. In Arran Water Gregor Adamson provides a comprehensive first-hand account of distilling on the island from the emergence of clandestine manufacture in the late 18th century to the construction of the new distillery at Lagg in 2018 by Isle of Arran Distillers which reinstated legal whisky production on the island after 160 years with the establishment of a distillery at Lochranza in 1995. Arran Water dispels the myths, hearsay and folktales that have distorted Arran's distilling story and provides a clear narrative, largely through primary research, which highlights the key role that illicit whisky production and smuggling played in the island's economic, social and cultural development. Using a vast array of original sources, Adamson outlines the manufacture, transportation, and consumption of sma' still whisky, unearths the secrets of the hidden bothies of the Arran hills and glens, and describes the bloody battles fought between island smugglers and the Excise gaugers and Revenue Cuttermen. The author also explores the development of licensed whisky production on the island, from the lost legal distilleries of the 1790s and 1820s to the modern developments at Lochranza and Lagg.

This book aims to provide useful tips for the understanding of scientific research processes and practical advice for people engaged in this field. It is a reflection of the author's more than 40 years of experience in medical and cancer research, and is written in a colloquial style to reach not only the young audience who are considering devoting their lives to biomedical research, but also to those who are already engaged in this field. The author emphasizes the unique traits and qualifications required for performing scientific research and also describes the different modalities which can be performed in our actual scientific environment. There are numerous practical advices in this book, such as guidelines on writing a grant proposal and the first peer-reviewed manuscript, the selection criteria of the training laboratory and mentors, as well as keeping records of experimental data. The author also provides his insight on the personal inner drive and motivation critical for conducting scientific research, as well as the importance of working on a problem without losing the human perspective of this specific and unique human endeavor.

The famous 1962 Port Huron Statement by the Students for a Democratic Society (SDS) introduced the concept of participatory democracy to popular discourse and practice. In Inspiring Participatory Democracy Tom Hayden, one of the principal architects of the statement, analyses its historical impact and relevance to today's movements. Inspiring Participatory Democracy includes the full transcript of the Port Huron statement and shows how it played an important role in the movements for black civil rights, against the Vietnam war and for the Freedom of Information Act. Published during the year of Port Huron's 50th anniversary, Inspiring Participatory Democracy will be of great interest to readers interested in social history, politics and social activism.
