Bong Joon Ho won the Oscar® for Best Director for Parasite (2019), which also won Best Picture, the first foreign film to do so, and two other Academy Awards. Parasite was the first Korean film to win the Palme d'Or at Cannes. These achievements mark a new career peak for the director, who first achieved wide international acclaim with 2006's monster movie The Host and whose forays into English-language film with Snowpiercer (2013) and Okja (2017) brought him further recognition. As this timely book reveals, even as Bong Joon Ho has emerged as an internationally known director, his films still engage with distinctly Korean social and political contexts that may elude many Western viewers. The Films of

Bong Joon Ho demonstrates how he hybridizes Hollywood conventions with local realities in order to create a cinema that foregrounds the absurd cultural anomie Koreans have experienced in tandem with their rapid economic development. Film critic and scholar Nam Lee explores how Bong subverts the structures of the genres he works within, from the crime thriller to the sci-fi film, in order to be truthful to Korean realities that often deny the reassurances of the happy Hollywood ending. With detailed readings of Bong's films from *Barking Dogs Never Bite* (2000) through *Parasite* (2019), the book will give readers a new appreciation of this world-class cinematic talent.

premiere of Blackfish - an independent documentary film that critiqued the treatment of orcas in captivity - visits to SeaWorld declined, major corporate sponsors pulled their support, and performing acts canceled appearances. The steady drumbeat of public criticism, negative media coverage, and unrelenting activism became known as the "Blackfish Effect." In 2016, SeaWorld announced a stunning corporate policy change - the end of its profitable orca shows. In an evolving networked era, social-issue documentaries like Blackfish are art for civic imagination and social critique. Today's documentaries interrogate topics like sexual assault in the U.S. military (The Invisible War), racial injustice (13th), government surveillance (Citizenfour), and more. Artistic nonfiction films are changing public conversations, influencing

media agendas, mobilizing communities, and capturing the attention of policymakers - accessed by expanding audiences in a transforming media marketplace. In *Story Movements: How Documentaries Empower People and Inspire Social Change*, producer and scholar Caty Borum Chattoo explores how documentaries disrupt dominant cultural narratives through complex, creative, often investigative storytelling. Featuring original interviews with award-winning documentary filmmakers and field leaders, the book reveals the influence and motivations behind the vibrant, eye-opening stories of the contemporary documentary age.

*Game Audio with FMOD and Unity* introduces readers to the principles and practice of game audio through the process of

creating their own First Person Shooter (FPS) game. All the basics are covered, as well as a simple introduction to coding. Using the free software Unity and FMOD Audio Middleware, the reader will be able to create a game of their own and develop a portfolio that demonstrates their capacities in interactive sound design. Perfect for classroom use or independent study, Game Audio with FMOD and Unity also comes with a full suite of audio assets provided on a companion website.

We're in the midst of a digital media-making revolution--and the Canon Vixia G10 and XA10 camcorders are at the

forefront. Blurring the line between "prosumer" and professional, the G10 and XA10 are sharper, cleaner, more compact, more portable, and boast more professional features than any prior palm-sized camcorder in their price range. This book is a comprehensive field guide to the concepts, strategies, equipment, and procedures for achieving the best results possible with Canon's top-of-the-line palm-sized camcorders. The guide focuses on the specific features of the Canon Vixia HF G10 and XA10, but users of other camcorders in the Vixia series, the Legria series (shooting PAL), and other camcorders will find a wealth of relevant information. With a high-definition palm-sized camcorder such as the Canon Vixia G10 or XA10, your potential is limited only by your imagination and your
