The Book That Launched an International Movement "An absolute must-read for parents." -The Boston Globe "It rivals Rachel Carson's Silent Spring." -The Cincinnati Enquirer "I like to play indoors better 'cause that's where all the electrical outlets are," reports a fourth grader. But it's not only computers, television, and video games that are keeping kids inside. It's also their parents' fears of traffic, strangers, Lyme disease, and West Nile virus; their schools' emphasis on more and more homework; their structured schedules; and their lack of access to natural areas. Local governments, neighborhood associations, and even organizations devoted to the outdoors are placing legal and regulatory constraints on many wild spaces, sometimes making natural play a crime. As children's connections to nature diminish and the social, psychological, and spiritual implications become apparent, new research shows that nature can offer powerful therapy for such maladies as depression, obesity, and attention deficit disorder. Environment-based education dramatically improves standardized test scores and grade-point averages and develops skills in problem solving, critical thinking, and decision making. Anecdotal evidence strongly suggests that childhood experiences in nature stimulate creativity. In Last Child in the Woods, Louv talks with parents, children, teachers, scientists, religious leaders, child-development researchers, and environmentalists who recognize the threat and offer solutions. Louv shows us an alternative future, one in which parents help their kids experience the natural world more deeply-and find the joy of family connectedness in the process. Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad Richard Louv's new book, Our Wild Calling, is available now.

Score your highest on exam day Relax. The fact that you're even considering taking the AP English Language & Composition exam means you're smart, hard-working, and ambitious. All you need is to get up to speed on the exam's topics and themes and take a couple of practice tests to get comfortable with its question formats and time limits. Now a Major Motion Picture, Starring Simon Baker, Elizabeth Debicki, and Richard Roxburgh Breath is a story of risk, of learning one's limits by challenging death. On the wild, lonely coast of Western Australia, two thrill-seeking teenage boys fall under the spell of a veteran big-wave surfer named Sando. Their mentor urges them into a regiment of danger and challenge, and the boys test themselves and each other on storm swells and over shark-haunted reefs. The boys give no thought to what they could lose, or to the demons that drive their mentor on into ever-greater danger. Venturing beyond all caution--in sports, relationships, and sex--each character approaches a point from which none of them will return undamaged.

Jessamy Harrison is eight years old. Sensitive, whimsical, possessed of a powerful imagination, she spends hours writing, reading or simply hiding in the dark warmth of the airing cupboard. As the half-and-half child of an English father and a Nigerian mother, Jess just can't shake off the feeling of being alone wherever she goes, and other kids are wary of her terrified fits of screaming. When she is taken to her mother's family compound in Nigeria, she encounters Titiola, a ragged little girl her own age. It seems that at last Jess has found someone who will understand her. TillyTilly knows secrets both big and small. But as she shows Jess just how easy it is to hurt those around her, Jess begins to realise that she doesn't know who TillyTilly is at all.

Winner of the John Dos Passos Prize for Literature "Stunning."-Newsweek With the same audacity with which John Steinbeck wrote about migrant worker conditions in The Grapes of Wrath and T.C. Boyle in The Tortilla Curtain, Viramontes presents a moving and powerful vision of the lives of the men, women, and children who endure a second-class existence and labor under dangerous conditions in California's fields. At the center of this powerful tale is Estrella, a girl about to cross the perilous border to womanhood. What she knows of life comes from her mother, who has survived abandonment by her husband in a land that treats her as if she were invisible, even though she and her children pick the crops of the farms that feed its people. But within Estrella, seeds of growth and change are stirring. And in the arms of Alejo, they burst into a full, fierce flower as she tastes the joy and pain of first love. Pushed to the margins of society, she learns to fight back and is able to help the young farmworker she loves when his ambitions and very life are threatened in a harvest of death. Infused with the beauty of the California landscape and shifting splendors of the passing seasons juxtaposed with the bleakness of poverty, this vividly imagined novel is worthy of the people it celebrates and whose story it tells so magnificently. The simple lyrical beauty of Viramontes' prose, her haunting use of image and metaphor, and the urgency of her themes all announce Under the Feat of Jesus as a landmark work of American fiction.
