This brand new textbook covers all of the core topics found on Introduction to Management modules, and the author's clear, accessible writing style guides students through the world of management. The book also goes a step further to encourage students to develop a critical mindset and think about academic debates around the subject. Innovative Skillsets linked to each substantive chapter integrate practical skills with the topics. Skills such as time management, critical analysis, referencing, personal development planning and reviewing literature are included. Clear, step-by-step guidance helps students develop each skill, understand why it is important, and see how the topic is relevant to practical applications in the real world of business. A truly international range of case studies broadens students' horizons and encourages them to look beyond the standard examples from the UK and America. Emerging markets are becoming ever more important in the rapidly changing business environment, a fact reflected by the inclusion of case studies from the Middle East, Latin America and Africa. Key features Designed to help boost students' academic grades and employability through the provision of integrated Skillsets, which link practical skills with topics in the textbook. These innovative features also clearly demonstrate the relevance of the theoretical material to the real world. A truly international range of case studies broadens students' horizons and encourages them to look beyond the standard set of UK and American examples. Emerging economies are given more attention with detailed analysis of case studies from the Middle East, Latin America and Africa. Case studies analyse service and manufacturing industries, not-for-profit organisations as well as public and private companies. Entrepreneurs, managers and leaders are also covered to provide students with management insights from key practitioners from a range of sectors. Critical reflection boxes encourage students to develop a critical mindset and consider the academic debates behind the theories. A range of online resources to give students more insight into management. Detailed podcast interviews with practitioners expand upon the features in the textbook, and a library of video links offers a variety of contemporary and stimulating material to engage students.

This text has been designed as a supplement to the Textbook of Surgery to assist readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery. There are two types of Multiple Choice Questions: Type A and Type X. Type A have a single best response from five alternatives and are designed to test judgmental ability. Type X questions contain a stem with suggested answers that are either true or false and are designed to test factual knowledge and its application. The text is set out in three sections, the first containing Type A questions, the second containing Type X questions and the third containing short answer questions that emphasize clinical management problems. In each section, the questions are presented in the sequence used in Textbook of Surgery. The number of questions for each general topic relate to the relative importance ascribed to each topic in order to provide balance. The answers are accompanied by a reference to the chapter(s) in the Textbook of Surgery where the information required to answer the specific question is presented.

Intensive care medicine is a dynamic and evolving specialty, requiring its practitioners to be part physician, physiologist and anaesthetist. This requires a firm foundation of knowledge and an ability to apply this to the clinical situation. This book contains 270 multiple-choice questions allowing self-assessment of the breadth of knowledge required of the modern intensivist. The book is divided into three papers each consisting of 60 multiple true false (MTF) and 30 single best answer (SBA) questions covering areas including resuscitation, diagnosis, disease management, organ support, and ethical and legal aspects of practice. The MTF questions test factual knowledge and understanding of the evidence base underpinning intensive care medicine, while the SBA questions test the ability of the candidate to prioritise, compete options and make the best decision for the patient. Each question is peer reviewed and accompanied by concise and detailed explanatory notes with references to guide further reading. All the authors are practising intensive care physicians with firsthand experience of professional examinations in the specialty. This book will appeal to intensive care physicians approaching professional examinations worldwide, including the European Diploma, American Board and Faculty of Intensive Care Medicine examinations. In addition, it will appeal to intensive care nurses and allied healthcare professionals wishing to update their knowledge as part of continuing professional development, and to physicians sitting professional examinations in related specialties requiring knowledge of intensive care medicine such as general medicine, general surgery and anaesthesia. This new book will complement the existing international best-selling title ' Multiple Choice Questions in Intensive Care Medicine ' (ISBN 978 1 903378 64 9), also written by Dr Steve Benington.

Now in its third Canadian edition, the market-leading Social Research Methods is an engaging and straightforward introduction to conducting quantitative and qualitative research in the social sciences. Building on the success of previous editions, the authors deftly guide students through all aspects of the research process, while providing useful tips on how to effectively collect, analyze, and interpret data, and disseminate those findings to others. With a brand new chapter on ethics and extensive updates throughout, this new edition continues to be an essential guide to the conceptual foundations, methodological approaches, and practical
