Bring Science Alive! is an Integrated program built from the ground up to align to the Next Generation Science Standards (NGSS). Bring Science Alive! embodies the new vision for how science should be taught in schools-focusing on big picture concepts and teaching students how to "do science"--rather than memorize facts. [from publisher's website]

The Complete Book of United States History provides 352 pages of fun exercises for students in grades 3 to 5 that teaches important lessons in U.S. History! The exercises cover pre-United States history with the native peoples of the American continent to present day, and it also includes a complete answer key, user-friendly activities, and easy-to-follow instructions. --Over 4 million in print! Designed by leading experts, books in the Complete Book series help children in grades preschool-6 build a solid foundation in key subject areas for learning success. Complete Books are the most thorough and comprehensive learning guides available, offering high-interest lessons to encourage learning and fun, full-color illustrations to spark interest. Each book also features challenging concepts and activities to motivate independent study, and a complete answer key to measure performance and guide instruction.

Preparing students to be active, informed, literate citizens is one of the primary functions of public schools. But how can students become engaged citizens if they can't read, let alone understand, their social studies texts? What can educators--and social studies teachers in particular--do to help students develop the knowledge, skills, and motivation to become engaged in civic life? Building Literacy in Social Studies addresses this question by presenting both the underlying concepts and the research-based techniques that teachers can use to engage students and build the skills they need to become successful readers, critical thinkers, and active citizens. The authors provide targeted strategies--including teaching models, graphic organizers, and step-by-step instructions--for activities such as \* Building vocabulary, \* Developing textbook literacy skills, \* Interpreting primary and secondary sources, \* Applying critical thinking skills to newspapers and magazines, and \* Evaluating Internet sources. Readers will also learn how to organize classrooms into models of democracy by creating learning communities that support literacy instruction, distribute authority, encourage cooperation, and increase accountability among students. Realistic scenarios depict a typical social studies teacher's experience before and after implementing the strategies in the classroom, showing their potential to make a significant difference in how students respond to instruction. By making literacy strategies a vital part of content-area instruction, teachers not only help students better understand their schoolwork but also open students' eyes to the power that informed and engaged people have to change the world.

Aligned with national standards, these strategies and sample lessons turn learners into history detectives as they solve historical mysteries, prepare arguments for famous cases, and more.

A guide to the Middle Ages, discussing events, people, and practices around the world from 500 to 1500.

Reinforce critical concepts from the text and help students improve their reading-for-information skills with this essential resource, written 2-3 grade levels below the Student Edition

The Latin Alive! Book One: Teacher's Edition includes a complete copy of the student text, as well as answer keys, extra teacher's notes and explanations, unit tests, and bonus projects and activities.
