The spellbinding conclusion to the brilliant fantasy series by the author of *The Mirador* and *M é lusine*. Exiled from *M é lusine* for the crime of heresy, the once powerful Cabaline wizard Felix Harrowgate and his half-brother Mildmay, former cat-burglar and assassin, journey to Corambis to face judgment from a ruling body of wizards. Corambis, however, is a land plagued by civil strife. Kay Brightmore, the Margrave of Rothmarlin, is part of an insurrection to restore the monarchy in the southern half of the country. In desperation, Kay and his rebels seek out the engine of Summerdown, an ancient magical device rumored to have terrible powers. Once the engine is awakened, only a powerful wizard can stop its awesome potential for destruction. Felix and Mildmay arrive just in time for their greatest challenge-and ultimate destiny...

Glissant has written extensively in French about the colonial experience in the Caribbean. Britton (French, Aberdeen U., Scotland) situates Glissant within ongoing debates in postcolonial theory, making connections between his novels and theoretical work and the work of Frantz Fanon, Gayatri Spivak, Homi Bhabha, and Henry Louis Gates, Jr. Focusing on language and subjectivity, discussion moves between analysis of Glissant's theoretical work and detailed readings of his novels. Major themes central to his writing, such as the reappropriation of history, standard

“ An original American story of a tough, embattled media player with uncanny gifts for giving the public what they want. ” —Publishers Weekly In *The Godfather of Tabloid*, Jack Vitek explores the life and remarkable career of Generoso Pope Jr. and the founding of the most famous tabloid of all—the National Enquirer. Upon graduating from MIT, Pope worked briefly for the CIA until he purchased the New York Enquirer with dubious financial help from mob boss Frank Costello. Working tirelessly and cultivating a mix of American journalists (some of whom, surprisingly, were Pulitzer Prize winners) and buccaneering Brits from Fleet Street who would do anything to get a story, Pope changed the name, format, and content of the modest weekly newspaper until it resembled nothing America had ever seen before. Pope was a man of contradictions: he would fire someone for merely disagreeing with him in a meeting (once firing an editor in the middle of his birthday party), and yet he spent upwards of a million dollars a year to bring the world ’ s tallest Christmas tree to the Enquirer offices in Lantana, Florida, for the enjoyment of the local citizens. Driven, tyrannical, and ruthless in his pursuit of creating an empire, Pope changed the look and content of supermarket tabloid media, and the industry still bears his stamp. Grounded in interviews with many of Pope ’ s supporters, detractors, and associates, *The Godfather of Tabloid* is the first comprehensive biography of the man who created a genre and changed the world of publishing forever. “ An engaging saga of

Witches are taking the nation by storm. With the untapped gift to create fire, witch Sarafina Connell is caught up in a war between good and evil. And she has no choice but to join an infamous playboy in the battle for supremacy-one that's getting hotter by the minute.

This overview of some of the main results and recent developments in nonlinear water waves presents fundamental aspects of the field and discusses several important topics of current research interest. It contains selected information about water-wave motion for which advanced mathematical study can be pursued, enabling readers to derive conclusions that explain observed phenomena to the greatest extent possible. The author discusses the underlying physical factors of such waves and explores the physical relevance of the mathematical results that are presented. The book is intended for mathematicians, physicists and engineers interested in the interplay between physical concepts and insights and the mathematical ideas and methods that are relevant to specific water-wave phenomena. The material is an expanded version of the author's lectures delivered at the NSF-CBMS Regional Research Conference in the Mathematical Sciences organized by the Mathematics Department of the University of Texas-Pan American in 2010.

Scarlet remembers. Everything. Her past lives, Tristan, Gabriel, Nate: she remembers it all--including how to get to the Fountain of Youth. But time is running out. Heather and Gabriel have been kidnapped by Raven, while the curse that has plagued Scarlet and Tristan for centuries has shifted, putting the star-crossed lovers in more danger than ever before. Water from the Fountain of Youth is the only thing that can save Scarlet and her loved ones. But the water comes at a price. With lives--and hearts--at stake, Scarlet leads her friends on a dangerous journey to the Fountain of Youth. Where eternal life is possible, but death is certain.

This is a free romantic suspense book, the beginning of a romantic suspense series, although this book with this couple reads as a standalone. Twenty-six year old Jen Manko finds out the hard way that she's too trusting. Her apartment ransacked, her bank account emptied, and her heart broken, Jen has had enough and high-tails it to the only place she can think of where she will be welcomed - her brother's house. Anxious for a fresh start, Jen does something completely out of character and decides to become a cop. Soon, the athletic beauty with the striking-pink locks captures the attention of Sergeant Hunter Foley. When she is vetted for an undercover assignment, Jen dares another feat and quickly wins the approval of the powers that be. Once embedded in the covert operation, yet another unlikely suitor is drawn to her. With two men on opposite sides of the law vying for her attention, Jen is forced to make a choice or risk having all she's worked so hard for ripped away from her. This is a spin-off of the Edge of the Heat Series. The characters from the

The fifth volume in Starr's classic history of California, *The Dream Endures* shows how Californians rebounded from the Great Depression to emerge in the 1930s into what is now known as "the good life." Starr illustrates the ways the good life prospered in California--in film, fiction, leisure, and architecture. Starr looks at the newly important places where Californians lived out this sunny lifestyle: areas like Los Angeles (where Hollywood lived), Palm Springs (where Hollywood vacationed), San Diego (where the Navy went), the California Institute of Technology in Pasadena (where Einstein changed his view of the universe), and college towns like Berkeley. "In this, more than any other of Starr's monumental California histories, we see the stirrings of uniqueness in the social and cultural evolution of California. Starr's theme is relevant to all of America and the national destiny."--Neil Morgan, *San Diego Union-Tribune* "Enormously sensitive and moving. Social and cultural history doesn't get any better."--*San Francisco Chronicle* "In his monumental continuing study of
