The original India Pale Ale was pure gold in a glass; a semi-mythical beer specially invented, in the 19th century, to travel halfway around the world, through storms and tropical sunshine, and arrive in perfect condition for a long, cold drink on an Indian verandah. But although you can still buy beers with ' IPA ' on the label they are, to be frank, a pale imitation of the original. For the first time in 140 years, a keg of Burton IPA has been brewed with the original recipe for a voyage to India by canal and tall ship, around the Cape of Good Hope; and the man carrying it is the award-winning Pete Brown, Britain ' s best beer write. Brazilian pirates and Iranian customs officials lie ahead, but will he even make it that far, have fallen in the canal just a few miles out of Burton? And if Pete does make it to the other side of the world with ' Barry ' the barrel, one question remains: what will the real IPA taste like? Weaving first-class travel writing with assured comedy, Hops and Glory is both a rollicking, raucous history of the Raj and a wonderfully entertaining, groundbreaking experiment to recreate the finest beer ever produced.

It's an extraordinary tale of yeast-obsessed monks and teetotal prime ministers; of how pale ale fuelled an Empire and weak bitter won a world war; of exploding breweries, a bear in a yellow nylon jacket and a Canadian bloke who changed the drinking habits of a nation. It's also the story of the rise of the pub from humble origins through an epic, thousand-year struggle to survive misunderstanding, bad government and misguided commerce. The history of beer in Britain is a social history of the nation itself, full of catastrophe, heroism and an awful lot of hangovers. 'a pleasant antidote to more po-faced histories of beer' Guardian 'Like a good drinking companion, Brown tells a remarkable story: a stream of fascinating facts, etymologies and pub-related urban phenomena' TLS 'Packed with bar-room bet-winning facts and entertaining digressions, this is a book into which every pub-goer will want to dip.' Express

Meet Pete Brown: beer journalist, beer drinker and author of an irreverent book about British beer, Man Walks Into A Pub. One day, Pete's world is rocked when he discovers several countries produce, consume and celebrate beer far more than we do. The Germans claim they make the best beer in the world, the Australians consider its consumption a patriotic duty, the Spanish regard lager as a trendy youth drink and the Japanese have built a skyscraper in the shape of a foaming glass of their favourite brew. At home, meanwhile, people seem to be turning their back on the great British pint. What's going on? Obviously, the only way to find out was to on the biggest pub crawl ever. Drinking in more than three hundred bars, in twenty-seven towns, in thirteen different countries, on four different continents, Pete puts on a stone in weight and does irrecoverable damage to his health in the pursuit of saloon-bar enlightenment. 'A fine book. . . the exact tone that a work on this social drug requires.' The Times 'Over 300 bars later and the man still manages to make you laugh.' Daily Mirror 'Carlsberg don't publish books. But if they did, they would probably come up with Three Sheets to the Wind...' Metro 'A marvellous book which is as enlightening about the countries he visited as any travel guide.' Adventure Magazine

Beer is the most popular alcoholic drink on the planet, but few who enjoy it know much about how its four ingredients – hops, malted barley, water and yeast – miraculously combine. From the birth of brewing in the Middle East, through the surreal madness of drink-sodden hop-blessings in the Czech Republic and the stunning recreation of the first ever modern beer, Miracle Brew is an extraordinary journey through the nature and science of the world's greatest beverage. Along the way, we ' ll meet and drink with a cast of characters who reveal the magic of beer and celebrate the joy of drinking it.

A history of Britain as reflected by the George Inn near London Bridge traces its 600-year history, revealing its patronage by such famous figures as Chaucer and Dickens as well as everyday visitors ranging from sailors and murderers to highwaymen and peddlers.

Journalist Ryan Nerz spent a year penetrating the highest echelons of international competitive eating and Eat This Book is the fascinating and gut-bustingly hilarious account of his journey. Nerz gives us all the facts about the history of the IFOCE (Independent Federation of Competitive Eating)--from the story of a clever Nathan's promotion that began in 1916 on the corner of Surf and Stillwell in Coney Island to the intricacies of individual international competitions, the controversial Belt of Fat Theory and the corporate wars to control this exploding sport. He keeps the reader turning the pages as we are swept up in the lives of Sonya "The Black Widow" Thomas, "Cookie" Jarvis, "Hungry" Charles Hardy, and many other top gurgitators whose egos and secret agendas, hopes and dreams are revealed in dramatic detail. As Nerz goes on his own quest to become a top gurgitator, we become obsessed with him as he lies awake at night in physical pain from downing

dozens of burgers and learning to chug gallons of water to expand his increasingly abused stomach. Sparing no one's appetite, Nerz reveals the training, game-day strategies and after-effects of competition in this delectably shocking banquet of gluttony and glory on the competitive eating circuit.

'An absorbing love letter to the English apple tree...lyrical and joyful' - TLS 'A delightful book' - Sunday Times Shortlisted for the Andr Simon Food and Drink Book Award 2016 A Radio 4 Book of the Week 'Wonderful, revelatory ... very moving' - Sheila Dillon, BBC Radio 4 'His ability to laugh at himself, openness to wonder and willingness to go wherever the search takes him make Brown an engaging writer and The Apple Orchard an entertaining journey' - Mail on Sunday Taking us through the seasons in England's apple-growing heartlands, this magical book uncovers the stories and folklore of our most familiar fruit. 'An orchard is not a field. It's not a forest or a copse. It couldn't occur naturally; it's definitely cultivated. But an orchard doesn't override the natural order: it enhances it, dresses it up. It demonstrates that man and nature together can - just occasionally - create something more beautiful and (literally) more fruitful than either could alone. The vivid brightness of the laden trees, studded with jewels, stirs some deep race memory and makes the heart leap. Here is bounty, and excitement.'
