Hurting Distance is the second book in the long running Spilling CID series. I recently listened to the author's first book Little Face which I enjoyed, after listening to Hurting Distance I am now a firm fan of the series. The plot was beautifully crafted, but far fetched.

“Little Face is a wonderful work, a brilliant use of mirrors and the writer's magic. Chilling, tantalizing, and ultimately fair and deeply satisfying.” Barbara D’Amato, author of Death of a Thousand Cuts “Hannah adapts to crime fiction with arresting aplomb: Her characters are vivid, the novel’s challenging double narrative is handled with flair, and its denouement is ingenious.” The Sunday Times (London) “Outstandingly chilling.” The Spectator “Superb . . . good, old-fashioned spine-tingling stuff, but also a fine modern thriller.” The Times (London) “A terrifying mystery of manipulation, counter-manipulation and, finally, astounding revelation. It’s a haunting story told with bewitching skill.” The Scotsman “Impressive.” The Mail on Sunday The first time she goes out after their daughter is born, Alice leaves the two-week-old infant at home with her husband, David. When she returns two hours later, she insists that the baby in the crib is not her child. Despite her apparent distress, David is adamant that she is wrong. The police are called to the scene. Detective Constable Simon Waterhouse is sympathetic, but he doubts Alice’s story. His superior, Sergeant Charlie Zailer, thinks Alice must be suffering from some sort of delusion brought on by postpartum depression. With an increasingly hostile and menacing David swearing she must either be mad or lying, how can Alice make the police believe her before it’s too late? Sophie Hannah is an award-winning and best-selling poet in the United Kingdom. She has also previously published fiction. This is her first psychological crime novel. She lives in West Yorkshire with her husband and two children.

The brilliantly chilling seventh crime thriller from the queen of psychological suspense - a must-read for fans of Tana French and Liane Moriarty. 'Utterly chilling' Observer 'Truly hair-raising' Independent on Sunday Some secrets are so dark you keep them even from yourself . . . When Amber Hewerdine consults a hypnotherapist as a desperate last resort, she doesn't expect that anything much will change. She doesn't expect it to help with her chronic insomnia . . . She doesn't expect to hear herself, under hypnosis, saying words that mean nothing to her: 'Kind, cruel, kind of cruel' - words she has seen somewhere before, if only she could remember where . . . She doesn't expect to be arrested two hours later, as a result of having spoken those words out loud, in connection with the brutal murder of Katharine Allen, a woman she's never heard of . . .

The unnervingly good sixth psychological thriller from bestselling crime writer Sophie Hannah, not to be missed for readers of Nicci French and Liane Moriarty. 'Jaw-droppingly assured' Daily Express 'A first-class whodunnit' Scotsman Don't go into the other woman's house... It's 1.15 a.m. Connie Bowskill should be asleep. Instead, she's logging on to a property website in search of a particular house: 11 Bentley Grove, Cambridge. She knows it's for sale; she saw the estate agent's board in the front garden less than six hours ago. Soon Connie is clicking on the 'Virtual Tour' button, keen to see the inside of 11 Bentley Grove and put her mind at rest once and for all. She finds herself looking at a scene from a nightmare: in the living room, in the middle of the carpet, there's a woman lying face down in a huge pool of blood. In shock, Connie wakes her husband Kit. But when Kit sits down at the computer to take a look, he sees no dead body, only a pristine beige carpet in a perfectly ordinary room . . .

"A superbly creepy, twisty thriller" (The Times (London)) by the internationally best-selling author of *The Other Woman's House* and *The Wrong Mother* Naomi Jenkins knows all about secrets: three years ago something so terrible happened to her that she's never told anyone about it. Now, Naomi has another secret: her relationship with the unhappily married Robert Haworth. When Robert vanishes without explanation, Naomi knows he must have come to harm. But the police are less convinced, particularly when Robert's wife insists he is not missing. In desperation, Naomi decides that if she can't persuade the detectives that Robert is in danger, she'll convince them that he is a danger to others. Naomi knows how to describe the actions of a psychopath; all she needs to do is dig up her own traumatic past. The second book in Sophie Hannah's beloved Zailer and Waterhouse series, *The Truth-Teller's Lie* is a chillingly smart suspense novel sure to appeal to fans of Tess Gerritsen and Gillian Flynn.

The latest in Sophie Hannah's internationally bestselling Zailer & Waterhouse series, named by The Sunday Times as one of the 50 Best Thrillers of the Last Five Years When Gaby's plane is delayed, she's forced to share a hotel room with a stranger: Lauren, who is terrified of her. But why is she scared of Gaby in particular? Lauren won't explain. Instead, she blurts out something about an innocent man going to prison for murder. Gaby soon suspects that Lauren's presence on her flight isn't a coincidence, because the murder victim is Francine Breary, the wife of the only man Gaby has ever truly loved. Tim Breary has confessed. He's even provided the police with evidence. The only thing he hasn't given them is a motive. He claims to have no idea why he murdered his wife

Hannah was tall and graceful, naturally pretty, spirited and impulsive, the upper-class young woman who picked, of all men, Lovell--the introverted climate scientist who thought he could change the world if he could just get everyone to listen to reason. After a magical honeymoon, they settled in the suburbs to raise their two children. But over the years, Lovell and Hannah's conversations have become charged with resentments and unspoken desires. She has become withdrawn. His work affords him a convenient distraction. And then, after one explosive argument, Hannah vanishes. For the first time, Lovell is forced to examine the trajectory of his marriage through the lens of memory. As he tries to piece together what happened to his wife--and to their life together--readers follow Hannah on that single day when a hasty decision proves irrevocable. With haunting intensity, a seamless balance of wit and heartbreak, and the emotional acuity that author Heidi Pitlor brings to every page, *The Daylight Marriage* mines the dark and delicate nature of a marriage. "A page-turning exploration of unexpressed love and unnecessary loss. Riveting and heartbreaking." "GERALDINE BROOKS, author of *Caleb's Crossing* "In *The Daylight Marriage*, there are two mysteries--the whereabouts of a missing woman and the vagaries of the human heart. Heidi Pitlor explores both of these enigmas with equal mastery, merging a shocking crime story with an incisive portrait of a failed marriage. The result is a novel that is fast-moving, emotionally complex, and ultimately heartbreaking." "Tom Perrotta, author of *Nine Inches* "Pitlor brings forth the emotions that surge beneath the surface with the precision and power of a conductor . . . This powerful analysis of how dreams become nightmares will make readers want to hold their loved ones close." "Booklist, starred review

From the author of 'Me and the Fat Man', this novel moves through a Victorian London which is tender, murky and unsettling. It is a tale of the unspeakable and tragic extremes of loss and need. Originally published: London: Fourth Estate, 2000.

Combe Island off the Cornish coast has a bloodstained history of piracy and cruelty but now, privately owned, it offers respite to over-stressed men and women in positions of high authority who require privacy and guaranteed security. But the peace of Combe is violated when one of the distinguished visitors is bizarrely murdered. Commander Adam Dalglish is called in to solve the mystery quickly and discreetly, but at a difficult time for him and his depleted team. Dalglish is uncertain about his future with Emma Lavenham, the woman he loves; Detective Inspector Kate Miskin has her own emotional problems; and the ambitious Sergeant Francis Benton-Smith is worried about working under Kate. Hardly has the team begun to unravel the complicated motives of the suspects than there is a second brutal killing, and the whole investigation is jeopardized when Dalglish is faced with a danger more insidious and as potentially fatal as murder.

As in the cascading of water, violence and nonviolence can cascade down from commanding heights of power (as in waterfalls), up from powerless peripheries, and can undulate to spread horizontally (flowing from one space to another). As with containing water, conflict cannot be contained without asking crucial questions about which variables might cause it to cascade from the top-down, bottom up and from the middle-out. The book shows how violence cascades from state to state. Empirical research has shown that nations with a neighbor at war are more likely to have a civil war themselves (Sambanis 2001). More importantly in the analysis of this book, war cascades from hot spot to hot spot within and between states (Autesserre 2010, 2014). The key to understanding cascades of hot spots is in the interaction between local and macro cleavages and alliances (Kalyvas 2006). The analysis exposes the folly of asking single-level policy questions like do the benefits and costs of a regime change in Iraq justify an invasion? We must also ask what other violence might cascade from an invasion of Iraq? The cascades concept is widespread in the physical and biological sciences with cascades in geology, particle physics and the globalization of contagion. The past two decades has seen prominent and powerful applications of the cascades idea to the social sciences (Sunstein 1997; Gladwell 2000; Sikkink 2011). In his discussion of ethnic violence, James Rosenau (1990) stressed that the image of turbulence developed by mathematicians and physicists could provide an

important basis for understanding the idea of bifurcation and related ideas of complexity, chaos, and turbulence in complex systems. He classified the bifurcated systems in contemporary world politics as the multicentric system and the statecentric system. Each of these affects the others in multiple ways, at multiple levels, and in ways that make events enormously hard to predict (Rosenau 1990, 2006). He replaced the idea of events with cascades to describe the event structures that 'gather momentum, stall, reverse course, and resume anew as their repercussions spread among whole systems and subsystems' (1990: 299). Through a detailed analysis of case studies in South Asia, that built on John Braithwaite's twenty-five year project Peacebuilding Compared, and coding of conflicts in different parts of the globe, we expand Rosenau's concept of global turbulence and images of cascades. In the cascades of violence in South Asia, we demonstrate how micro-events such as localized riots, land-grabbing, pervasive militarization and attempts to assassinate political leaders are linked to large scale macro-events of global politics. We argue in order to prevent future conflicts there is a need to understand the relationships between history, structures and agency; interest, values and politics; global and local factors and alliances.
