Transnational and transborder journalism are in a unique position to address public discourses on European and regional border-transcending identities. A valuable resource for journalists, students, and scholars of international communication, Journalism across Borders explores how journalists in the border regions of Europe navigate different journalistic cultures and the lack of established routines. Drawing on dozens of interviews and newsroom observation, Kevin Grieves addresses an overlooked but important aspect of international journalism by examining how journalists carry out their daily work in the transnational and regional transborder context.

Originally published in 1984, this work is organised in three parts. Each part consists of several related chapters. Each chapter explores the assumptions and implications of a closely related group of concepts in depth. Part 1 explores what a structure is. It considers such notions as content, context, constraint, unity, integrity, and the hierarchical and nucleate forms of organization. Part 2 critically explores the dynamic (energetic) conceptualization of psychological and social phenomena. Thus, this part considers such notions as energy, entropy, activity, confirmation, discrepancy, and resistance, as they apply to and affect the stability, activity, and changes observed in psychological and social structures. The relationship among the biological (metabolic), psychological, and social levels of analysis are explored from a rather simplified thermodynamic point of view. In Part 3 brings all these earlier considerations to bear upon the processes by which these structures grow and develop. It explores the concept of development itself, and such related issues as the levels-by-stages model of development, the distinction between infrastructural and intergenerational development, the orthogenic principles, the process of primordial differentiation and integration, development as a dialectical process, and the relationship between growth and development. The Epilogue indicates briefly some of the implications of the present thesis for future empirical and theoretical investigations.

For Lennox Cooper, helping out a friend means gambling with her life. In the rainy city of Portland, Matilda Bauer has been blackmailing her parole officer, Fulin Chen. Just when Fulin ' s ready to come clean, Matilda disappears. Bad news for Fulin, because once Matilda is arrested for breaking parole she ' ll show the photos she has on him and end his career. Fulin turns to his longtime friend and poker buddy, Lennox Cooper, P.I., to help him find the beautiful blonde con-woman. A former cop, Lennox knows how it feels to live and breathe the police life—and to be thrown out of it. She'll do anything to help her friend avoid a similar fate. But three days later Lennox finds Matilda dead, in what looks like a sex game gone terribly wrong. Fulin Chen is the lead suspect. Lennox's search for Matilda, however, causes her to begin turning over rocks, finding that her past lies under many of them—not to mention deadly threats. Matilda Bauer had no shortage of enemies, though, and Lennox will have to sift through the many blackmail victims and jilted lovers to find the real killer.

Now she ' s trying to build a new life as a private investigator, but all she ' d landed so far are surveillance gigs. The murder of a wealthy developer gives her a chance to reestablish herself as a homicide detective. During the course of the investigation she meets Mr. Right. Only problem, he ' s on the short list of suspects. Lennox bets on her lover ' s innocence. The odds aren ' t much better than drawing A Bitch Called Hope.

There is a man, who after an unfortunate event underwent a phase when he was waiting only either to be dead or to be rescued. He had to kill the time but with something sweet; he closed his eyes and remembered those moments of his life he lived. One by one, pictures flashed in front of the mind ' s eyes and all he could do was to witness, silently. He was rescued and his life took a U-turn. Back in his world, questioned his love ones about incidents in their lives those affected them the most. He meant the incidents they wouldn ' t stop thinking about come what may. He gave his ears to all of it. In the end, he got a handful of them to hold on to and called it: Life—an ATOM in itself; and thus, the book All Those Ossum moments! The world ' s private stories are always the hidden beautiful treasures in one ' s life but through the stories he realized those were still as much public as there is something common we all can share in the stories. Not all but often, we remember moments we felt we had experienced the extremes of Love, Hate, Hugs and Kisses. Love is also an emotion that makes you the most vulnerable and melts you exactly the same as does revenge in one ' s life.
