Most people associate Hill Harper with Hollywood, as he's appeared in dozens of films and television shows. But he is just as comfortable in a school auditorium, rousing groups of students with his unique style of real-life wisdom. Having addressed thousands of high-school and middle-school students over the

years, Hill is ready to take his message to an even wider audience. Letters to a Young Brother is drawn from the humbling life lessons he learned on the road to his Ivy League education and beyond. Inspired by the countless letters and e-mails he has received from teens, Hill Harper set out to write a series

The result is a motivational but approachable book full of encouragement on a wide array of hot topics, particularly among young African-American and Hispanic men. From the challenges of getting a

This book is not about me. It's about my younger brother who died of stage four pancreatic cancer when he was just forty-three years young. He had never smoked a day in his life. That bears repeating—he had NEVER smoked a day in his life. And I should've fought harder to help him overcome it.

# Where To Download

Not a day goes by that I don't think of him, and four years after his death, I am still eaten up with guilt for letting him die, and I still blame God for everything. If you have a loved one who has cancer, read this book. If you have already lost someone because of cancer (and God), read this book.

But most importantly, if

your younger brother is still alive and you see him at every family reunion, read this book.

When they were children in the suburbs of Los Angeles in the 1950s, Diane Keaton and her younger brother,

Randy, were best friends and companions—they shared stories at night in their bunk beds; they swam, laughed, and dressed up for Halloween. Their mother captured their American-dream childhoods in her diaries and on camera. But as they grew up, Randy became troubled, then reclusive. By the time

he reached adulthood, he was divorced, an alcoholic, a man who couldn't hold on to full-time work-his life was a world away from his sister's and from the rest of their family. Now Diane is delving into the nuances of their shared, and separate, pasts to confront the difficult question of why and how Randy ended up

living his life on "the other side of normal." It begins as an assignment for English class: Write a letter to a dead person. Laurel chooses Kurt Cobain because her sister, May, loved him. And he died

young, just like May did. Soon, Laurel has a notebook full of letters to people like Janis Joplin, Amy Winehouse, Amelia Earhart, Heath Ledger, and more -- though she never gives a single one of them to her teacher. She writes about starting high school, navigating new friendships, falling in love for the first time,

learning to live with her splintering family. And, finally, about the abuse she suffered while May was supposed to be looking out for her. Only then, once Laurel has written down the truth about what happened to herself, can she truly begin to accept what happened to May. And only when Laurel has begun to see her
