The Ambulatory Care Nursing Review Questions, 5th edition, published by the American Academy of Ambulatory Care Nursing (AAACN). This set of practice test items is designed to assist ambulatory care nurses in assessing their knowledge of the practice of ambulatory care nursing. Professional nurses should take every opportunity to advance their expertise, skills, and knowledge, and use tools such as this publication to assess their knowledge gaps and learn from studying the answers. All review questions, answers, and their associated page numbers (found in the back of the booklet) are based on the Core Curriculum for Ambulatory Care Nursing, 4th edition (Laughlin & Witwer, 2019), a AAACN publication. Using the Core Curriculum as the companion to this set of review questions is highly recommended. This edition of the Review Questions has been updated to reflect the latest content outline of the Ambulatory Care Nursing Certification Exam of the American Nurses Credentialing Center (ANCC) published in 2017. The 180 multiple-choice items follow the same format as the questions on the ANCC Ambulatory Care Nursing Certification Exam. The multiple-choice items are grouped into five domains of practice corresponding to those on the examination. The content in each of the domains and the percentage of questions are drawn directly from the test content outline as published by ANCC at the time of this writing.

Get an in-depth look at pediatric primary care through the eyes of a Nurse Practitioner! Pediatric Primary Care, 6th Edition guides readers through the process of assessing, managing, and preventing health problems in infants, children, and adolescents. Key topics include developmental theory, issues of daily living, the health status of children today, and diversity and cultural considerations. This sixth edition also features a wealth of new content and updates — such as a new chapter on pediatric pharmacology, full-color design and illustrations, new QSEN integration, updated coverage of the impact of the Affordable Care Act, a refocused chapter on practice management, and more — to keep readers up to date on the latest issues affecting practice today. Comprehensive content provides a complete foundation in the primary care of children from the unique perspective of the Nurse Practitioner and covers the full spectrum of health conditions seen in the primary care of children, emphasizing both prevention and management. In-depth guidance on assessing and managing pediatric health problems covers patients from infancy through adolescence. Four-part organization includes 1) an introductory unit on the foundations of global pediatric health, child and family health assessment, and cultural perspectives for pediatric primary care; 2) a unit on managing child development; 3) a unit on health promotion and management; and 4) a unit on disease management. Content devoted to issues of daily living covers issues that are a part of every child's growth — such as nutrition and toilet training — that could lead to health problems unless appropriate education and guidance are given. Algorithms are used throughout the book to provide a concise overview of the evaluation and management of common disorders. Resources for providers and families are also included throughout the text for further information. Expert editor team well is well-versed in the scope of practice and knowledge base of Pediatric Nurse Practitioners (PNPs) and Family Nurse Practitioners (FNPs).

Pamphlet is a succinct statement of the ethical obligations and duties of individuals who enter the nursing profession, the profession's nonnegotiable ethical standard, and an expression of nursing's own understanding of its commitment to society.
