Delusion, dementia or discourse? A daughter insists on the latter, and with the threads of her mother's narratives weaves for them a raft of words. These conversations, unlike anything I'd shared with her before, shocked me. I was glad they happened only when we were alone together. I'd never even thought these things I heard us say, didn't know where they came from. But since they seemed to make sense to her, I kept inviting her to speak. She'd say something, I'd listen, say something back; we were together in words. As if what we said to each other arose, not from our own learning or experience, but some underlying chord that included our voices but was bigger, spoke through them, as if the sound of the ocean were encoded in the sounds of the rain. I'll Close My Eyes(But I Won't Be Asleep)sounds an intimate, heartbreaking, and sometimes humorous, end-of-life chord in a mother and daughter relationship.A compelling memoir, I'll Close My Eyes(But I Won't Be Asleep)is an honest account of what, for most of us, remains hidden and unheard. It will be useful for anyone torn by conflicting desires and demands, battered by memory, grief and rage, and struggling to give care. Elisa Adler studied at the University of California, Berkeley, Mills College and, in Bogota, Colombia, at Centro de Estudios Colombo-Americanos. She has worked as a newspaper reporter, translator, interpreter, laborer and domestic, teaches English and Spanish at colleges in California and Nevada, and farms with her daughter and husband in the northern Sierra."

Eva Perino is single and proud of it. Owner of The Grounds, a coffee shop nestled in the heart of a college town, thirtysomething Eva cherishes her comfortable life filled with quirky friends, a fun job, and no significant other. In fact, she's so content to be on her own that she started a blog about it: "Why I Love Singlehood." Yet when she hears the news of her ex-boyfriend's engagement, her confidence in her single status takes a surprisingly hard hit. So begins Eva's clumsy (and occasionally uproarious) search for love as she secretly joins an online dating site, tries her hand at speed-dating, and breaks her own rule by getting involved with one of The Grounds' regulars. Soon Eva is forced to figure out exactly who--or what--is the true love of her life.

is a year older than Jessie. The girls would seem to have little in common, yet they soon become the best of friends. Then one night, they hear the music of the prison band's spellbinding solo bugler. Convicted murderer and gifted musician Slater Carr is the newest arrival at Cayuta Prison. Jessie and Elisa become obsessed with Slater, who to Jessie is like a local John Dillinger—and who was an unwitting part of a botched robbery in which two people were killed. When a daring escape culminates in murder, Elisa's family moves back to Germany, where Hitler is rising to power. Years later, Jessie makes a shocking discovery about her long-lost friend. *Your Eyes in Stars* is a stunning novel about friendship, prejudice, assimilation, and the end of innocence. This ebook features an illustrated personal history of Marijane Meaker including rare images from the author's collection.

In the sequel to *Faking It*, Andi Cutrone flees to Italy to escape the grief over the loss of her husband, only to unexpectedly run into the man who helped her discover her true self years earlier. Original.

Meet Lindsay Chandler a 32 year-old New York working wife and mother with old-fashioned values who thinks she's living a fairy tale life (she's not). Then an unexpected friendship with her upstairs neighbor (he is smart, successful, sophisticated and sexy she's not) unleashes her passion and re-ignites her sparkle. This liaison causes her to question the way she lives her life. Yearning for a storybook ending, she decides to make changes in her life, embarking on a quest for self re-invention in this hilarious, witty, touching story. Guaranteed entertaining and fun!!

The LEA Guide to Composition is firmly based on research into how people learn to write and draws on the most significant strategies and techniques in composition studies. But this text is not just about the act of writing. It is about using writing as a vehicle for learning--about the world, about the academy, about oneself. The focus is on writing as a means of interpretation. The emphasis throughout is on encouraging reflection and developing critical thinking skills. Although the text suggests ways of teaching that reflect knowledge about how people most easily learn to become competent writers, it is specifically designed to allow for numerous approaches to teaching composition. Instructors will value this flexibility. This text is finely tuned to the needs and interests of today's composition students and teachers. Classroom tested at various universities over a four-year period to refine and improve its effectiveness, the Guide is distinguished by a range of carefully crafted instructional features: *Reading-Writing Connection. An extensive selection of fresh, thought-provoking, professional work allows students to internalize models and acquire appropriate genre familiarity. Student papers are included to illustrate how others have responded to real writing tasks similar to those the readers of this book will face. *Critical Reading and Thinking. Numerous reading selections are thoroughly analyzed to provide models of close, critical reading. Critical Reading Guides, provided for some selections, draw students in by asking rhetorical questions that develop critical thinking skills and better understanding of how the authors produced key effects. *Diverse Voices. Specially designed writing activities encourage students who are non-native speakers of English, or who come from non-mainstream cultural backgrounds, to share their perspectives with the entire class. *Writing Activities. More than 60 writing activities of various types are included, suitable for students with a range of writing experience. Many of these are short assignments that are linked to longer ones, which allows students to build their skills sequentially, adding new skills as old ones are practiced and mastered. *Writing Guides. Based on years of teaching experience, these guides provide detailed information and concrete, practical advice about how to succeed on selected assignments in each chapter. *Group Activities. Selected writing assignments include collaborative workshop activities that prompt students to engage in a variety of group efforts that enhance the writing process. As a result, group work progresses with a clear purpose and well-defined goals, leading to more student involvement and, ultimately, better writing. *Application of Key Ideas. Writing Assignments, Writing Guides, and Critical Reading Guides are complemented by activities that allow students to practice using important concepts

discussed in the text that progress with a clear purpose and well-defined before they begin an actual assignment. *Journal Entries. Prompts throughout the text are included to increase the amount of writing students do, to enhance reflection and critical thinking, and to engage students in reflecting on and making connections between college and their lives outside of class. *Handbook. The handbook provides basic information about the form and function of language. It focuses on the usage conventions that are a crucial part of academic writing. In addition, it covers differences and similarities in the specific conventions that govern writing in the humanities, social sciences, and science. The documentation formats for these three major divisions of the undergraduate curriculum are described in detail, with full-length student papers to illustrate the formats in context. An Instructor's Manual is available with this text, upon adoption.

"Battling a negative self-image, self-imposed isolation, and troubled relationships, Elisa [Lorello] eventually unlocked the strength to free her and become the teacher and bestselling novelist she was meant to be. And she discovered that her Duran Druan fandom--and the power of music--was the key. ... Much more than a fan letter, ... this is a collection of stories about growing up in 1980s suburbia"--Page 4 of cover.

Johnny Holt Jr comes home to Kentucky for the summer to find his father, JJ has made alliances with a notorious slaveowner, Spanish-born Edmond Maguerro to turn Holt Lands into a million-dollar plantation. Johnny is indifferent, much as he hates the idea because of his liberal views about slavery, but doesn't involve himself until he meets Elisa, one of his father's new slaves. Johnny is smitten and convinced Elisa belongs with him in New York, where he is a law student at a prestigious college, or any other world where the society is color-blind. And he goes all out to remove her from slavery and into that world. Set in 1800s American slave-era, I loved a slave follows the story of two lovers as they make their way through circumstances beyond their control to escape their reality and live in a world best imagined.
