McKinty's previous book, *Falling Glass*, was an Audible.com Best Thriller of 2011 Northern Ireland, spring 1981. Hunger strikes, riots, power cuts, a homophobic serial killer with a penchant for opera, and a young woman's suicide that may yet turn out to be murder: on the surface, the events are unconnected, but then things—and people—aren't always what they seem. Detective Sergeant Duffy is the man tasked with trying to get to the bottom of it all. It's no easy job—especially when it turns out that one of the victims was involved in the IRA but was last seen discussing business with someone from the loyalist Ulster Volunteer Force. Add to this the fact that, as a Catholic policeman, it doesn't matter which side he's on, because nobody trusts him, and Sergeant Duffy really is in a no-win situation. Fast-paced, evocative, and brutal, *The Cold Cold Ground* is a brilliant depiction of Belfast at the height of the Troubles—and of a cop treading a thin, thin line.

A merciless killer who will stop at nothing. And a detective with nothing left to lose. When Detective Karen Hart hears a scream echoing out of beautiful Lincoln Cathedral one snowy evening, she is the first officer on the scene. In the chapel a man lies murdered, a bloody cross carved into his forehead. The twisted killing sends this close-knit community into shock. And a note to the police from the murderer, signed by 'The Cleanser', confirms their worst fears: this sadistic slaying is the first of many. The ritual killings will never stop until Hart uncovers the murderer's ungodly motive. When early leads become dead ends, Karen starts to wonder if there's a link to a rumoured conspiracy within police ranks--particularly when an abrasive new officer is assigned to the case. Could the key to catching 'The Cleanser' be dangerously close to home? Meanwhile, she is battling her own demons as she struggles to come to terms with the deaths of her husband and daughter. In her toughest case yet, Karen will come closer than ever before to a dangerous truth. Can she put the pieces of the puzzle together before she's stopped in her tracks?

Richard Coulter is a man who has everything. His beautiful new wife is pregnant, his upstart airline is undercutting the competition and moving from strength to strength, his diversification into the casino business in Macau has been successful, and his fabulous Art Deco house on an Irish cliff top has just been featured in *Architectural Digest*. But then, for some reason, his ex-wife Rachel doesn't keep her side of the custody agreement and vanishes off the face of the earth with Richard's two daughters. Richard hires Killian, a formidable ex-enforcer for the IRA, to track her down before Rachel, a recovering drug addict, harms herself or the girls. As Killian follows Rachel's trail, he begins to see that there is a lot more to this case than first meets the eye and that a thirty-year-old secret is going to put all of them in terrible danger. McKinty is at his continent-hopping, well-paced, evocative best in this thriller, moving between his native Ireland and distant cities within a skin-of-his-teeth timeframe.

Whether you are a dedicated audiophile who wants to gain a more complete understanding of the design issues behind a truly great amp, or a professional electronic designer seeking to learn more about the art of amplifier design, there can be no better place to start than with the 35 classic magazine articles collected together in this book. Douglas Self offers a tried and tested method for designing audio amplifiers in a way that improves performance at every point in the circuit where distortion can creep in – without significantly increasing cost. Through the articles in this book, he takes readers through the causes of distortion, measurement techniques, and design solutions to minimise distortion and efficiency. Most of the articles are based round the design of a specific amplifier, making this book especially valuable for anyone considering building a Self amplifier from scratch. Self is senior designer with a high-end audio manufacturer, as well as a prolific and highly respected writer. His career in audio

design is reflected in the articles in this book, originally published in the pages of Electronics World and Wireless World over a 25 year period. An audio amp design cookbook, comprising 35 of Douglas Self's definitive audio design articles Complete designs for readers to build and adapt An anthology of classic designs for electronics enthusiasts, Hi-Fi devotees and professional designers alike

A Catholic cop tracks an IRA master bomber amidst the sectarian violence of the conflict in Northern Ireland It's the early 1980s in Belfast. Sean Duffy, a conflicted Catholic cop in the Protestant RUC (Royal Ulster Constabulary), is recruited by MI5 to hunt down Dermot McCann, an IRA master bomber who has made a daring escape from the notorious Maze prison. In the course of his investigations Sean discovers a woman who may hold the key to Dermot's whereabouts; she herself wants justice for her daughter who died in mysterious circumstances in a pub locked from the inside. Sean knows that if he can crack the "locked-room mystery," the bigger mystery of Dermot's whereabouts might be revealed to him as a reward. Meanwhile the clock is ticking down to the Conservative Party conference in Brighton in 1984, where Mrs. Thatcher is due to give a keynote speech.
