Malcolm Bradbury’s classic skewering of 1970s academia, hailed by the New York Times as “an encyclopedia of radical chic as well as a genuinely comic novel” Among the painfully hip students and teachers at the liberal University of Watermouth, Howard Kirk appears to be the most stylish of them all. With his carefully manicured mustache and easygoing radicalism, Kirk prides himself on being among the most highly evolved teachers on his redbrick campus. But beneath Kirk’s scholarly bohemianism and studied cool is a ruthless, self-serving Machiavellian streak. A sociology lecturer who outwardly espouses freethinking nonconformity, Kirk is himself vain and bigoted,

dismissing female students and colleagues while releasing vitriol against those who contradict him, particularly his clever, wayward wife, Barbara, the long-suffering mother of his two children. A funny and incisive satire of academia and ideological hypocrisy, *The History Man* is one of Malcolm Bradbury's most acclaimed novels and remains just as sharp and witty today as when it was first published.

'The funniest and best-written novel I have seen for a very long time' Auberon WaughHoward Kirk, product of the Swinging Sixties, radical university lecturer, and one half of a very modern marriage, is throwing a party. The night will have all sorts of repercussions: for Henry Beamish, Howard's desperate and easily neglected friend, and for Howard's wife Barbara, promiscuous '70s liberal and exhausted victim of motherhood. *The History Man* is Malcolm Bradbury's masterpiece and the definitive campus novel of the 1970s. It brilliantly satirizes a world of academic power struggles and abuse at the highest level as the Machiavellian Howard effortlessly seduces his way around campus.

Howard Kirk is the trendiest of radical tutors at a fashionable university. Timid Vice-Chancellors pale before his threats of disruption and reactionary colleagues are crushed beneath his merciless Marxist logic.

Shortlisted for the Man Booker Prize: In this comedic novel, an English professor collides with disaster at the peak of the Cold War. Shortly after his plane first grazes the tarmac in the eastern European nation of Slaka, Dr. Angus Petworth is beset by a cavalcade of misadventures. A university lecturer and seasoned international traveler, Petworth is nevertheless unprepared for the oddities of culture and circumstance that await him on the other side of the iron curtain. In two eventful weeks, Petworth gives an incendiary interview, is seduced by a femme fatale, and becomes embroiled in a plot of international intrigue, all of which conspire to give the mild, unassuming professor way more than he bargained for. Satirizing everything from critics and diplomats to Marxism and academia, Malcolm Bradbury's *Rates of Exchange* is a witty and lighthearted novel of cultural interchange at the height of the Cold War.

fiction of the seventies. A campus novel is determined by the history of an university. It mirrors problems and crises of the institution at that time. The meeting of students and lecturers in this kind of novel is an important feature. Those two groups constitute the social system of the university and build up the story, because every group makes different experiences in this institution. In an interview Malcolm Bradbury explained some of the tensions that lay behind *The History Man*. Within this novel he wanted to deal with some ironic processes of human behaviour. Therefore the author gives his characters some important trades. The University of Watermouth is one of the new universities, because it was found after the war. This institution is an invention of the author. The main character is a lecturer of sociology, Doctor Howard Kirk. He does not want to teach history as it was, he just wants to make history after his own radical opinion. His aim is to revolutionize teaching and that is why his seminars are the means to an end for his political self-realization. Referring to the title of the book, Howard Kirk as the "History Man" influences the students not only in their view about the university, but also in their opinion about politics. That is why there are some advocates of his teaching methods, but also some opponents. The man influences some students so enormously that he is responsible for their opinion about the state of academia. This can be proved on the example of Felicity

Phee, a student of Howard, two girls, who also study at the University of Watermouth, and George Carmody. Furthermore Doctor Kirk is characterized in the relationships to those people indirectly. He is shown in different parts, but he is always just interested in his own aims and not in the needs of other people.

reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

Forty-year-old university professor Stuart Treece is rather set in his ways, and in the midst of the changing attitudes of the '50s, his encounters with the younger generation are making him feel decidedly alien. When he falls disastrously in love with one of his students all his efforts to acclimatize are hilariously undermined. Timeless and brilliant, *Eating People is Wrong* is Malcolm Bradbury's first novel, and established him as a master of satire.

A headstrong young journalist goes on the adventure of a lifetime, traveling through Europe to find the world's most enigmatic philosopher Bazlo Criminale is one of Europe's most legendary living men. A mysterious novelist and thinker known for his extreme elusiveness, the beloved Criminale is a cultural icon of the highest order. Seeking to find the man behind the myth, a London television-news station hires Francis Jay, an enterprising young reporter, to find Criminale. From Vienna to Budapest to the picturesque lakeshores of Italy, Jay journeys across the continent—and even briefly to Brazil—interviewing the man's biographer, his publisher, and his former lover, all of whom have their own interests at stake. literary award dinners and other examples of “culture as spectacle,” Jay must navigate the chaotic world of post-Cold War Europe as he chases the specter of a literary legend.

'What is written lives far longer than we do -- or so we would like to think.' From unfinished novel to unsent letters, from prose to play, from Macclesfield to the New Year's Honours List, *Liar's Landscape* is evidence of the late great author's versatility, wit and passion for the written word. When Sir Malcolm Bradbury died in 2000, he left behind a lifetime's work; some of it published and some of it not; fiction and non-fiction; short stories and novels; completed work, work in progress, work barely begun; plans, sketches, notes, titles. Given shape and coherence by his son, Dominic, that work has now become *Liar's Landscape*, a book about books, about writing and writers, about being a writer and, of course, about being Malcolm Bradbury. '*Liar's Landscape* is essential reading for all admirers of Malcolm Bradbury and, for those who don't know his work, an invaluable sampler of his worldly-wise humour and satirical wit' Tom Rosenthal, *Independent*
