Thus Spake Zarathustra Friedrich Wilhelm Nietzsche was a German philosopher, cultural critic, composer, poet, philologist, and Latin and Greek scholar whose work has exerted a profound influence on modern intellectual history. He began his career as a classical philologist before turning to philosophy. He became the youngest ever to hold the Chair of Classical Philology at the University of Basel in 1869 at the age of 24. Nietzsche resigned in 1879 due to health problems that plagued him most of his life; he completed much of his core writing in the following decade. In 1889 at age 44, he suffered a collapse and afterward, a complete loss of his mental faculties. He lived his remaining years in the care of his mother until her death in 1897 and then with his sister Elisabeth Förster-Nietzsche. Nietzsche died in 1900.

in the literature of European ideas' A. C. Grayling
Nietzsche was one of the most revolutionary thinkers
in Western philosophy, and Thus Spoke Zarathustra
remains his most influential work. It describes how
the ancient Persian prophet Zarathustra descends
from his solitude in the mountains to tell the world
that God is dead and that the Superman, the human
embodiment of divinity, is his successor. With blazing
intensity, Nietzsche argues that the meaning of
existence is not to be found in religious pieties or
meek submission, but in an all-powerful life force:
passionate, chaotic and free. Translated with an
introduction by R. J. HOLLINGDALE

One of the greatest books ever written. A splendid
