Islamic Trade, Commercial, Export-Import Laws and Regulations Handbook

Investment Laws in Muslim Countries Handbook Volume 1 Investment Laws, Regulations and Opportunities in Selected Countries

The sixteen-volume Handbook of Middle American Indians, completed in 1976, has been acclaimed the world over as the most valuable resource ever produced for those involved in the study of Mesoamerica. When it was determined in 1978 that the Handbook should be updated periodically, Victoria Reifler Bricker, well-known cultural anthropologist, was selected to be series editor. This first volume of the Supplement is devoted to the dramatic changes that have taken place in the field of archaeology. The volume editor, Jeremy A. Sabloff, has gathered together detailed reports from the directors of many of the most significant archaeological projects of the mid-twentieth century in Mesoamerica, along with discussions of three topics of general interest (the rise of sedentary life, the evolution of complex culture, and the rise of cities).

RLE Social and Cultural Anthropology brings together a collection of key titles from a range of historic imprints. From Anthropology and Nursing to Everyday Life, from The Gift Economy to Two-Dimensional Man, they form an essential reference source from a selection of acclaimed international authors.

Considering such witnesses of the time as Shakespeare, Dante, Petrarch, Michelangelo, Machiavelli, Montaigne, More and Bacon, Agnes Heller looks at both the concept and the image of a Renaissance man. The concept was generalised and accepted by all; its characteristic features were man as a dynamic being, creating and re-creating himself throughout his life. The images of man, however, were very different, having been formed through the ideas and imagination of artists, politicians, philosophers, scientists and theologians and viewed from the different aspects of work, love, fate, death, friendship, devotion and the concepts of space and time. Renaissance Man thus stood as both as a leading protagonist of his time, one who led and formulated the substantial attitudes of his time, and as one who stood as a witness on the sidelines of the discussion. This book, first published in English in 1978, is based on the diverse but equally important sources of autobiographies, works of art and literature, and the writings of philosophers. Although she uses Florence as a starting point, Agnes Heller points out that the Renaissance was a social and cultural phenomenon common to all of Western Europe; her Renaissance Man is thus a figure to be found throughout Europe.
