Technopoly The Surrender Of Culture

The subtitle for his book is "The Surrender of Culture to Technology," which is a very concise summary of the argument of his book. Though, by the end, he seems to have portrayed the rise of the modern American Technopoly more as a degeneration and undermining of the cultural meaning and purpose undergirding our entire society.

The late Neil Postman's book, *Technopoly*, is a sobering assessment of a technologically obsessed American culture. The fact that the book was presciently published in 1992, long before the Internet became ubiquitous, is alarming. Don't be fooled though, Postman isn't a pure Luddite and this isn't a book that is anti-technology.

Technopoly: The Surrender of Culture to Technology is a book by Neil Postman published in 1992 that describes the development and characteristics of a "technopoly". He defines a technopoly as a society in which technology is deified, meaning "the culture seeks its authorisation in technology, finds its satisfactions in technology, and takes its orders from technology".

Technopoly - Wikipedia

Technopoly: The Surrender of Culture to Technology is a 1992 nonfiction book by Neil Postman, a professor of education and communication. The book examines the influence of technology in society, particularly its rapid spread, far-reaching effects, and unquestioned acceptance. The last point is significant: Postman is not unequivocally opposed to technology but worries that it is not sufficiently scrutinized.

Technopoly Summary and Study Guide | SuperSummary

"Technopoly is a state of culture. It is also a state of mind. It consists in the deification of technology, which means that the culture seeks its authorization in technology, finds its satisfactions in technology, and takes its orders from technology." — Neil Postman, Technopoly: The Surrender of Culture to Technology
