I've posted about this before, but I am starting over from the beginning with this post: 24:10 error, broken bag: I found ink in the air tube of the Red ink. I ordered the broken bag fixing kit that was specified in the service manual. When received, it was the wrong kit - the part number in the manual is WRONG.

Any "gotcha's" to look out for? I have the workshop manual and have been doing some reading and it looks pretty straight forward. I've done belts on the 750C, 1050c, 800 and 5000 series models and this one doesn't look too different from the 800. Have ordered the genuine HP parts. Any insight would be helpful. Thanks in advance.
