x The National Drug Abuse Treatment Clinical Trials Network (CTN) multisite comparative-effectiveness study ("X:BOT") by Lee et al. (2018) found that, once initiated, extended-release naltrexone (XR-NTX) is as similarly safe and effective as sublingual buprenorphine-naloxone (BUP-NX) for the treatment of opioid use disorder (OUD). However, the detoxification hurdle makes XR-NTX much more ...
