UPDATED ISO 14644 1 & 2

ISO 14644-1:1999 (superseded): This standard defined classes of cleanliness by airborne particle count concentration following a decimal system. The classes are illustrated in Table C for a series of size ranges. The relationship between ISO class number, particle number concentration, and reference particle size is defined in the standard by the formula $C_n = 10N \times (0.1 \mu\text{m}/D)^{2.08}$, where C_n ...

Understanding Cleanliness Classifications for Life Science ...

With the withdrawal of the Federal Standard 209E, more and more companies and associates will be adopting these standards for the classification of airborne cleanliness classes (ISO 14644-1) and using the second part ISO 14644-2 to specify monitoring protocol (or re-certification of cleanroom) based on the cleanliness classes.
