JASO Engine Oil Standards Implementation Panel

Critical to understanding the unique requirements for motorcycle and scooter lubricants is JASO T903, the globally recognized standard for 4-stroke motorcycle lubricants. JASO T903 was introduced in 1998 in response to the increased use of friction modifier technology for fuel economy improvements in passenger car lubricant formulations.

Understanding JASO MA and MB Specific Performance for the ...

JASO MA - This was the standard for single unit engines where the wet clutch, gearbox and engine used the same oil. JASO-MA oils don't contain friction modifiers. JASO MB - This lower standard was for bikes that use separate oils for the engine, clutch and gearbox (e.g Harley Davidson's and BMW's). Then in 2006 JASO introduced.....
