## School Health Index Self Assessment

The School Health Index (SHI) Self-Assessment and Planning Guide is an online self-evaluation and planning tool for schools. The SHI is built on CDC's research-based guidelines for school health programs that identify the policies and practices most likely to be effective in reducing youth health risk behaviors.

## **School Health Index: Self-Assessment and Planning Guide**

...

A school health assessment is a systematic collection, review, and analysis of information about school health-related policies and programs for the purpose of improving students' health and educational outcomes. School health assessments give schools a snapshot in time of programs and policies that address student and staff health.

## **SHI | Using School Health Assessments | Healthy Schools | CDC**

This online SHI will guide you through completing the entire SHI, allow you to enter your scores for all SHI analyses, calculate your overall scores, help you identify strengths and weaknesses of the curriculum being considered, and guide you through establishing a curriculum improvement plan.
