State Failure In The Modern

State Failure in the Modern World presents a comprehensive, systematic, and empirically rigorous analysis of the full range of the state failure process in the post-World War II state system—including what state failure means, its causes, what accounts for its duration, its consequences, and its implications. Among the questions the book addresses are: when and why state failure occurs, why it recurs in any single state, and when and why its consequences spread to other states.

The Modern State and it was read by students of political science as a textbook. Today political scientists and researchers avoid the term modern state. In spite of this difficulty I shall, in the following pages, discuss some of the problems with which a modern state is faced. Here I use the term in a special sense.

State Failure in the Modern World | Octopus Books

A state is a polity under a system of governance. There is no undisputed definition of a state. A widely used definition from the German sociologist Max Weber is that a "state" is a polity that maintains a monopoly on the legitimate use of violence, although other definitions are not uncommon.. Some states are sovereign (known as sovereign states), while others are subject to external ...
