A keyword search for book titles, authors, or quotes. Search by type of work published; i.e., essays, fiction, non-fiction, plays, etc. View the top books to read online as per the Read Print community. Browse the alphabetical author index. Check out the top 250 most famous authors on Read Print. For example, if you're searching for books by William Shakespeare, a simple search will turn up all his works, in a single location.

The New Science Of Technical

Unlike other technical analysis books, which focus on head-and-shoulders and other patterns and simple things like moving averages, DeMark's "New Science" book provides the reader two valuable things: 1) ready-to-implement technical indicators that can be programmed (assuming you have access to the necessary data), and 2) ideas for further research.
