I have owned the Yaesu FT-450 now more than once. For all the features that you get for the cost, it's a ton of radio. I have owned the Icom Pro II, Yaesu FT-950, Kenwood TS 570s, Kenwood TS-590s and many others and still love the FT-450's feature set. It's easy to get into the menu and do any adjusting that you need to do.

I currently use a FT-817ND which I really like so I am looking at the FT-450 and FT-450D. I would like to buy a used rig if I can find one. I can figure out the spec differences between the 450 and the 450D. What I can't seem to learn is whether Yaesu is still supporting the 450 with firmware updates and upgrades.
